IV – The commission

Calculating the commission

How will I be paid?

You will be paid according to your user's actions on the AffiliateVista sites. Depending on the programme you have chosen you will receive commission for:

- Each prospect (registration on one of the sites);
- Turn over generated on one of the sites by users from your site.

For the second option, we calculate the commission based on completed orders (payment received and delivery made). The amount you receive varies depending on your performance.

To consult the commission for different AffiliateVista programmes [click here](#).

How can I check my revenue?

Your affiliate space allows you to check the number of postings, clicks and registrations, sales and turnover generated, the Click Through Rate, Conversion Rate etc. These statistics are available both on a general level and for each programme for which you are registered.

The commission paid for each of these is displayed next to the figures. In this way you can evaluate your earnings from every programme and even every link. This will allow you to optimise how your links are displayed to appeal to your users and maximise your earnings.

What kind of revenue can I expect from the AffiliateVista programmes?

You can easily generate high earnings from the AffiliateVista programmes. The revenue from different programmes soon builds up.

To consult the commission for different AffiliateVista programmes [click here](#).

How are the clicks, visits and sales recorded?

We have a tracking system that allows us to identify all the actions taken by the users from your site. When your user clicks on one of the graphics, AffiliateVista transfers them to one of our sites.

After this act, the user is tracked by a cookie for 30 days (or longer depending on the programme). During this period we track the user's actions on our site. They can visit the site, register or make a purchase (depending on the programme). All of the users' actions are recorded as long as the appropriate tag for the campaign has been correctly copied in the code for the banner.

We only pay commission for acts that are identified using the tracking system.

Any attempted fraud will result in the automatic cancellation of all commission earned by the Affiliate (see article 10.1 of the [Terms and Conditions](#)).

Receiving payment

When will I be paid?

You will be paid on a monthly basis for the commission earned two months previously when the accumulated value is higher than £70.

When this minimum payment level is not reached the balance is carried over to the following month.

You will only receive commission for the programmes for which you have been approved.

How frequently are payments made?

We calculate the total commission due at the end of each month. Payment is made by bank transfer once every month, 60 days after the Closing of the Books when the total value of commission is above £70 before tax. If the total value of commission is lower than £70 before tax, the total is carried over to the following month until this minimum payment level is attained.

How can I change my banking information to receive my payments?

The information provided when you register can be changed at any time in the "Profile" section of your affiliate space. To change your banking information fill in the fields in the "Banking Information" section.
